SunXFinder

FIND. COMPARE. CONNECT.

FOR SOLAR COMPANIES

Customers are looking for solar. Let them find you.

SunXFinder brings you quote requests from customers who have already calculated the system they need. You send your offer, win the project and manage it from one dashboard.

- ✓ Free to join
- ✓ Arabic and English
- ✓ Offers in SDG or USD

THE PLATFORM

What is SunXFinder?

SunXFinder is a marketplace that connects solar companies with customers who need a solar system. Customers add their appliances to our load calculator, see the panels, inverter and batteries they need, then ask companies for prices.

You receive the request, send your offer and manage the whole project from your company panel. No chasing leads, and no guessing what the customer needs.

Every request comes with the numbers

- Daily energy use
- Peak load
- Suggested panels, inverter and batteries

How a customer becomes your project

1. **Customer asks**
   A customer calculates their load and sends a quote request.
2. **You send an offer**
   One total price, with an invoice and a message.
3. **Customer chooses**
   They compare offers and accept the one they like.
4. **You install**
   A project is created. You post progress until handover.
5. **Customer rates you**
   Good ratings bring you more customers.

Why solar companies join

Requests with real numbers
See daily energy, peak load and the suggested system before you set a price.

Offers in minutes
An itemised invoice, one total price and a message to the customer, in SDG or USD.

Know where your price stands
See other companies' prices on the same request, without their names.

Your own company page
Your logo, description, products and ratings on the website and in the app.

Projects customers can follow
Post each installation milestone. The customer sees it in the app until handover.

Reports that help you win
Your win rate, response time, and your price against the price the customer chose.

GETTING STARTED

Up and running in four steps

1 Create your company account

Our team sends you the sign-up link. Fill in your details. It takes a few minutes.

2 Complete your profile

Company name, phone, city and license number, plus your logo and a description in Arabic and English.

3 Add your products

List the panels, inverters and batteries you sell, with their specifications.

4 Get approved

Our team reviews every company. Once approved, customers can find you and you can start sending offers.

YOUR COMPANY PANEL

Everything you need, in one place

- **Quote requests** — New requests, and the next step for each one.
- **Offers and invoices** — An itemised invoice or one total price, ready to download as PDF.
- **Package offers** — Build a complete system at a set price and send it to your customers.
- **Active projects** — Post each milestone. The customer follows along in the app.
- **Company customers** — Everyone who chose your company, in one list.
- **Push notifications** — Announcements and promotions, sent to your customers' phones.
- **My ratings** — Your stars, and what customers said about you.
- **Dashboard and reports** — Win rate, response time and pricing, for any period.

In Arabic and English. Switch language from the top bar and the whole panel changes, including right-to-left layout. A Company Manual inside the panel explains every page, step by step.

GROWING YOUR BUSINESS

How SunXFinder brings you customers

1 **Open requests**
Customers can send a request to all companies. Every approved company can answer with an offer.

2 **Direct requests**
Customers who like your profile send their request straight to you.

3 **Your public page**
Your own page on SunXFinder, ready to share with your Facebook and WhatsApp followers.

4 **Package offers**
Offer a ready system at a set price. Customers accept it from their phone.

5 **Ratings that sell for you**
After handover, customers rate your work. Your stars and their comments appear on your page.

6 **Customers who come back**
Stay in touch with past customers through push notifications, for maintenance and new offers.

What winning companies do

- ✓ Answer new requests the same day. Faster offers win more often.
- ✓ Complete your profile. Customers compare your profile, not only your price.
- ✓ Say what is included: warranty, delivery time and installation.
- ✓ Post project updates, so the customer always knows what is happening.
- ✓ Finish on time. It is the best way to earn good ratings.

Free to join
Create your account and your company page at no cost.

Free requests and offers
Receive quote requests and send your offers with no fees.

Free company panel
Projects, reports, notifications and every other tool in the panel, at no charge.
